

Intergovernmental Transactions Working Group

Overview

Fiscal Service is working to eliminate the material weaknesses related to intragovernmental transactions on the Financial Report of the United States Government. The accounting differences between agency trading partners on IGT buy/sell transactions are a contributor to these material weaknesses. The Data Standards subgroup is the main focus currently while Policy and Fiscal Law subgroups will be our focus in the near future. The main goal of the Data Standards subgroup is to develop an IGT Data Standard for IPP-IGT and publish them in the TFM by late summer of 2016. If you have any questions please email us at IGT@fiscal.treasury.gov.
