

## **What's New**

As of December 31, 2014, the Fiscal Service Secure Payment System (SPS) application has kept up-to-date with Microsoft in ending the support for Windows XP (see "[windows.microsoft.com/en-us/windows/end-support-help](http://windows.microsoft.com/en-us/windows/end-support-help)" and <http://fiscal.treasury.gov/fsservices/gov/pmt/sps/SPS-termination-support.pdf>).

If your agency still use Windows XP to access SPS, we highly recommend moving off of XP and switching to Windows 7 as soon as possible.

In some cases, SPS may continue to work with XP, but there are potential issues (due to the cessation of XP support by Microsoft) that may impact your ability to process payments. If you have any questions, comments or concerns, please contact the SPS Help Desk at 816-414-2340".
